June 6, 2007

To Whom It May Concern.

This letter will introduce Ms Cindy MacKenzie.

Cindy became an employee of The Wooten Company, LLC on January 20, 2003 She came to us with no property management experience and yet jumped into a problem property and accomplished more than any supervisor could reasonably expect. She is leaving due to a relocation with her fiancée

Cindy managed three different properties in her tenure with our Company; 159 units, 172 units, 144 units The properties were Class "C" to Class "A." Cindy had no trouble adjusting to the uniqueness of the individual properties and resident base

Cindy is the type of person that does not expect to be "hand fed." She is an independent thinker and quick learner She also has a rare quality called "common sense "

I have no doubt that that Cindy could accomplish ANYTHING she sets her mind to I very much envy the lucky employer who will benefit from her services

If you need further information, please feel free to give me a call.

Sincerely,

Karen "K.C." Cowan  
Director
